

Alu Blister Tablet Packing Machine DPP-270

Features

- Easy mold replacement with a finish blister packaging rate, ensuring smooth and efficient operation.
- Delivers high punching frequency with energy efficiency and accurate positioning.
- Combines the benefits of both flat-type and drum-type blister packaging machines, featuring a specially designed tablet feeder.
- The punching frequency reaches up to 200 times per minute, quadrupling the speed of traditional blister packaging machines.

Technical Specification

Condition	New	Production Capacity	20 Sets Per Month
Warranty	1 Year	Noise Index	Less than 75dBA
Main Motor Power	0.8kw	Ptp Alu Foil	0.02-0.035*260mm
Noise Index	Less Than 75dba	Dialysis Paper	50-100g*260mm
HS Code	8422303090	After-sales Service	Whole Life After-Sale Service
Air Pressure	0.4-0.6 MPa	Wooden Case	4460*650*1700 mm
Punches Frequency	25-60times/Min	Machine Weight	1850 kg
Travel Range	40-120mm (Optional)	Mold Cooling	Running Water or Recycle Water
PVC Material	0.25-0.50*260mm	Total Power	380V 50Hz 2.25 Kw (Customized Available)
