

Automatic Tablet Making Machine

Features

- Made from stainless steel, the machine is coated with a hardened layer on the surface, providing added durability to the turret.
- The machine is equipped with an auto-close function that activates when overpressure is detected, ensuring safe operation.
- The tablet press is primarily used for manufacturing tablet-shaped prescriptions in the pharmaceutical, chemical, food, and electronics Industries.

Technical Specification

Model	Zp25 DEU	Zp35 DEU	Zp37 DEU
Max Production Capacity	90000pcs/h	126000pcs/h	133200pcs/h
Max Turret Speed	0-30(r/min)		
Max Pressure	120Kn		
Max Filling Depth	15mm		
Max Tablet Thickness	0.5-6mm		
Max Tablet Diameter	18mm		
Motor Power	5.5KW/380V,50Hz		
Overall Size	1250*1000*1650mm		
Machine Weight	1850kg
