

Automatic Tablet Press Machine

Features

- The tablet press is primarily used for manufacturing tablet-shaped prescriptions in the pharmaceutical, chemical, food and electronics industries.
- All drive devices are housed internally, which helps maintain cleanliness. Regular weekly cleaning is recommended.
- Made from stainless steel, the machine is coated with a hardened layer on the surface, providing added durability to the turret.
- The machine is equipped with an auto-close function that activates when overpressure is detected, ensuring safe operation.

Technical Specification

Warranty	1 Year
Rotation Speed	30 RPM
Weight (Kg)	570 Kg
Power (Kw)	1.5kw
Max. Tablet Dia	22mm
Max. Tablet Thick	13mm
Max. Pressure	60 Kn
Production Capacity	9000 PCS/H
Host Size(L x W x H)	760mm*750mm*1550mm
