

High Speed Tablet Press Machine

Features

- Features a high-speed tablet press with a touch key and screen display. The electrical cabinet's operations panel is made from durable stainless steel.
- Equipped with a frequency converter for precise and adjustable motor speed control, ensuring ease of use, safety, and accuracy.
- The worm gearbox encloses the transmission system, isolating it from contamination and reducing noise and wear.
- The unique installation structure facilitates easy replacement and maintenance of the lower punch guide and lower - pressure wheel. Includes a mobile powder suction system.

Technical Specification

Max. Pressure(kN)	100kN
Turret Speed	30r/Min
Max. Dia of Tablet	13mm
Max. Thickness of Tablet	6mm
Capacity (PCS/H)	147500
Max. Depth of Fill(mm)	15mm
Applicable Industries	Pharmaceutical
Power Supply	4KW
Production Capacity	22000pcs/hour
Host Size(L x W x H)	1240x850x1850mm
Weight	2000kg
