

Pills Packaging Machine

Features

- The parts in contact with the pills are made of stainless steel and aluminum alloy, providing durability and compliance with hygiene standards.
- Features a fast and precise arrangement system, minimizing transmission errors and reducing noise for smooth operation.
- Ideal for packaging pharmaceuticals, health products, and medical capsules offering flexibility across various industries.

Technical Specification

Punch Frequency	10-35 Times/Min	PVC Material	0.15-0.50*80mm
Capacity	2400 Plates Per Hour	PTP Alu Foil	0.02-0.035*80mm
Total Power	220V 50Hz 1.8 Kw (Customized Available)	Dialysis Paper	50-100g*80mm
		Noise Index	Less than 75dBA
Travel Range	20-80mm	Machine Dimension (L×W×H)	1700*650*1450mm
Air Pressure	0.6-0.8 MPa	Machine Weight	450Kg
Main Motor Power	0.75KW	Mold Cooling	Running Water or Recycle Water
Ptp Alu Foil	0.02-0.035*80mm
