

Powder Mixer Pharmaceutical FZH 500

Features

- Achieves a mixing uniformity of 99%, with a load capacity ranging between 50% and 80%.
- Features an anti-misoperation panel that is easy to disassemble and clean, enhancing usability and maintenance.
- The inner wall is designed for easy cleaning, and the manufacturing process occurs in a sealed space, eliminating dust and meeting GMP standards.

Technical Specification

Weight(KG)	220 KG	Maximum Loading Volume	50L
Power (KW)	2.2 KW	Material	Stainless steel
Warranty Period	1 year	Mixer Type	Planetary mixer
Application	Powder	Material	SUS304, SUS304L, SUS316, SUS316L
Cylinder Volume	100L	Core Components	Motors, Gears, Pressure Vessels, Gearboxes Pumps, PLCs, Bearings, Engines
Power Supply	2.2-37kw
