

Rapid Mixing Pharma Granulator

Features

- Equipped with a dripping device, allowing adhesives to be added either by dripping or mixing. This feature is designed to meet the needs of various medicines, saving approximately 20% on adhesive usage while ensuring high-quality granulation.
- The granulator completes the mixing and granulation process in a single step improving efficiency by 4-5 times. The resulting particles are solid and have a high granulation rate.
- The stirring paddle is sealed with a rubber pad, employing a double composite technology that combines oil and air screws to overcome the common issues associated with shaft seal failures.

Technical Specification

Warranty	>2 Year
Capacity	75-210kg
Working Volume	150-420L
Max Inner Diameter	1150mm
Speed of Stirring Motor	20-200 rpm
Stirring Motor Power	30kw
Speed of Cutting Motor	50-3000 rpm
Cutting Motor Power	11kw
Machine Weight	3000KG
Overall dimension(L x W x H)	3300mm*2300mm*2550mm
