

Tube Sealing Machine

Features

- Combines filling and sealing functions in one operation, ensuring efficiency and precision.
- Includes color mark orientation for accurate tube alignment during filling and sealing.
- Utilizes PLC control with a touch-type human-machine interface for intuitive operation. Compact structure, easy operation, and precise filling ensure reliable performance.

Technical Specification

Productivity	10-15pcs/min
Radius of Sealing	10-50mm
Height of Sealing	50~210mm
Frequency	20KHz
Air Pressure	0.6Mpa \geq 0.3m ³ /min
Power Supply	1.8KW 220/110V 1PH 50/60Hz
Dimension (L×W×H)	860*600*800 (mm)
