

# Ultrasonic Tube Sealing Machine

## Features

- Automatically fills and seals tubes in a single operation, streamlining the production process.
- Suitable for filling a variety of cream and liquid products, including cosmetics, toothpaste, facial cleansers, and chemical products.
- Designed for easy manual operation, with power-saving features and a filling capacity of 22-25 tubes per minute.

## Technical Specification

Packaging Material	Plastic, Paper, Metal, Glass	Frequency	20KHz
Power	2600W	Power Supply	AC220V 1PH 50/60hz
Filling Volume	A:10-120ml/B:25-250ml	Filling Accuracy	±1%
Frequency	22-25pcs/min	Radius of Sealing	25-50mm
Air Pressure	50-250mm	Air Pressure	0.6MPa
Dimension	L1830*W1400*H1780mm	Weight	530Kg
