

V Blender Dry Powder Mixer V50-V300

Features

- The double lopsided cylinders allow powder to move in two directions increasing the mixing uniformity to as high as 99%.
- The machine employs vacuum for feeding within a sealed system eliminating the need of any internal driving structure. This design ensures cleanliness, prevents blind spots, and fully complies with GMP standards.

Technical Specification

Mixer Type	Agitator	Material	SUS304, SUS304L, SUS316
Barrel Volume	100L	Product Type	Food / Chemistry
Max. Loading Volume	40L	Application	Powder
Material Processed	Chemicals, Food	Voltage	110V/220V
Weight (KG)	236KG	Max. Loading Capacity	40L
Power (KW)	1.1 KW	Warranty of Core Components	3 years
Warranty	3 years	Dimensions (LxWxH)	1900mm*800mm*1190mm
Key Selling Points	Automatic	Appliance	Shampoo Cosmetic Cream Mixing Machine
